Supplement to A.H.D. No. 127 - Recognized Pullorum Classes and Digest of Laws and
Regulations Affecting the Sale of Hatching Eggs, Chicks and Poulets

ALABAMA - Supplementary regulation:

Sale and delivery of chicks and poulets by itinerant salesmen prohibited unless salesmen represent established and licensed places of business in Alabama. Attached label required showing name and address of firm represented, name and address of hatchery, breed and sex of chicks and poulets.

MARYLAND - New regulation:

Hatching eggs, chicks and poulets produced for sale and sold within the State shall originate in flocks and hatcheries that are U. S. Pullorum-Passed or -Clean, or in those that have met similar pullorum testing requirements under supervision. Permit required for hatchery and dealer operation.

Hatching eggs, chicks and poulets shipped into the State shall originate in flocks and hatcheries that are U. S. Pullorum-Passed or -Clean. Annual approval number required for shipment of chicks and poulets.

Hatching eggs, chicks and poulets not to be sold at public auction or by vending except under prior permit.

Administered by Maryland Livestock Sanitary Service, College Park, Md.

NORTH DAKOTA - Change in recognized pullorum classes:

U. S. Pullorum-Controlled tolerance reduced to -1%.

SOUTH CAROLINA - Change in recognized pullorum classes:

U. S. Pullorum-Controlled class deleted.

CANADA - Revised regulation:

Live poultry must be accompanied by a certificate issued by a full-time State Veterinarian or a Bureau Veterinarian, and endorsed by a Bureau Veterinarian authorized to perform such duties, indicating freedom from and exposure to Newcastle disease, fowl pest and fowl typhoid. Hatching eggs must be presented in clean, new containers and accompanied by a similar certificate indicating that the flocks of origin are free from Newcastle disease, fowl pest and fowl typhoid.

MEXICO - New regulation:

All shipments of poultry from the United States must originate in flocks and hatcheries that are under NPIP or NTIP supervision or comparable State supervision. Shipments to be accompanied by NPIP Form 15 or other acceptable certificate issued by the State authorities and visaed by a Mexican Consul in the United States. All shipping containers must indicate that certification accompanies the shipment.
